

WEBB INSTITUTE

Chemistry Adjunct

Webb Institute is looking for an adjunct professor to teach a freshman chemistry course to highly capable engineering students. The position is for someone with a strong background in chemistry and sciences or engineering. The starting date will be August 22, 2016. Previous teaching experience is desired though not required. The position requires the successful applicant to be able to teach standard undergraduate courses in chemistry including a laboratory component.

Webb Institute, located in Glen Cove, NY, has a total enrollment of about 85 residential students. The college offers one of the nation's preeminent undergraduate engineering programs culminating in a Bachelor of Science degree in Naval Architecture and Marine Engineering. All students receive four-year, full-tuition scholarships. The student body operates under a full Honor Code system and is largely self-governing. The college is on a beautiful 26-acre campus located on Long Island Sound.

Qualifications: Applicants should have at least a bachelor's degree in science or engineering; a master's degree in the same or in a closely-related discipline is required.

Interested individuals should submit curriculum vitae and contact information for three references to:

Matthew R. Werner
Dean
Webb Institute
mwerner@webb.edu

Reference "Chemistry Adjunct" in the subject of any email.

Review of applications will begin immediately and will continue until the position is filled. Applications will be accepted until the position is filled. Employment is contingent upon successful completion of a background check (Criminal, Education, and Employment Verification).
