Wet n' Wild

MISSION DRIVEN DESIGN

In response to an increasing need for firefighting services in the Port of Los Angeles/Long Beach area, the Los Angeles Fire Department (LAFD) has commissioned Team Hot Stuff to design a new class of firefighting vessels. This class must bridge the gap between the LAFD's existing larger and smaller vessels by providing not only a fast response time but also a large pumping capacity. During its service, this vessel must respond to and suppress fires, provide emergency medical services, defend against acts of terrorism, respond to environmental pollution, aid in search and rescue operations, and provide specialty team support.

PRINCIPAL CHARACTERISTICS

LOA: 65 ft

LBP: 60 ft

Breadth: 20 ft

Depth: 13 ft

Draft (Full Load): 5.9 ft

Complement: 4

Maximum Capacity: 12

Maximum Speed: 25 kts

Total Power: 8,298 hp

Hull Material: Steel

Superstructure Material: Aluminum

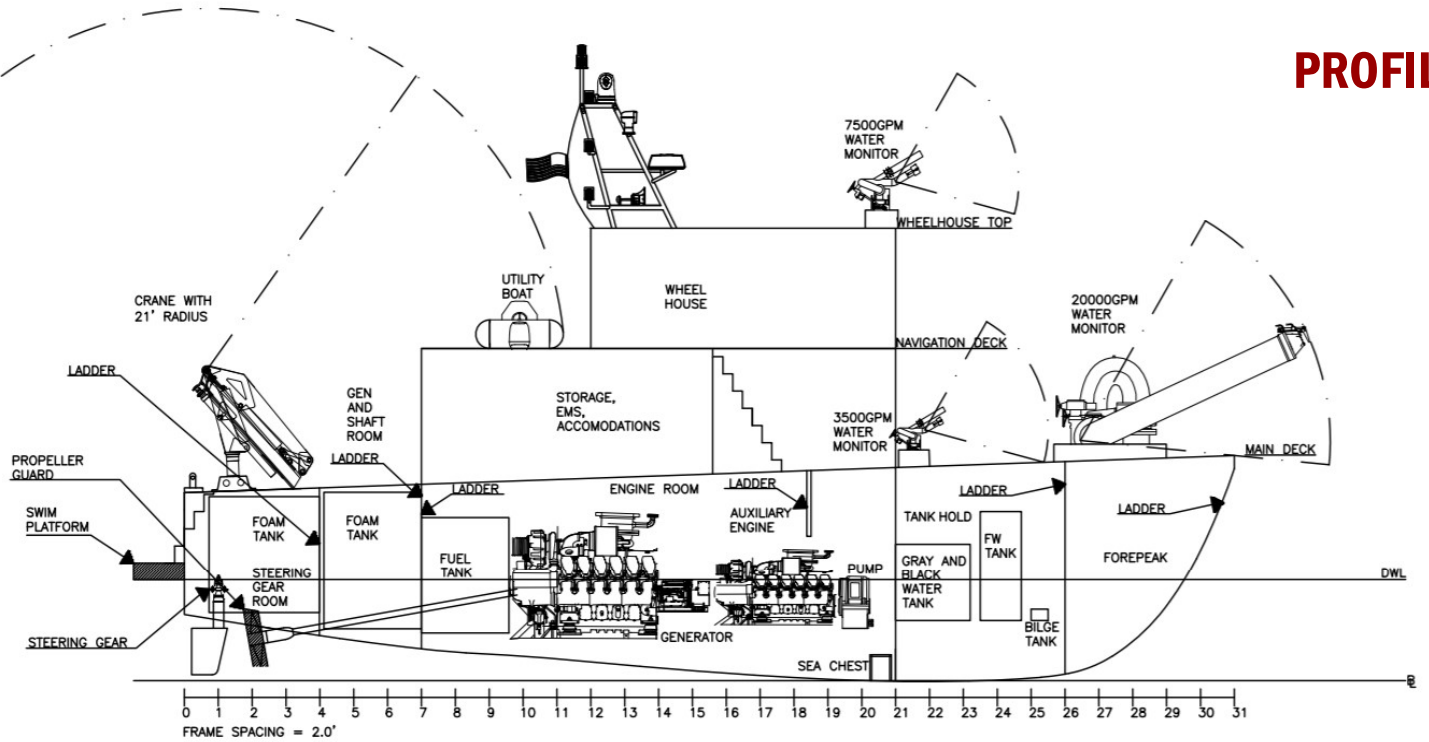

Compliance: ABS FiFi I, NFPA Type II

SPECIAL FEATURES

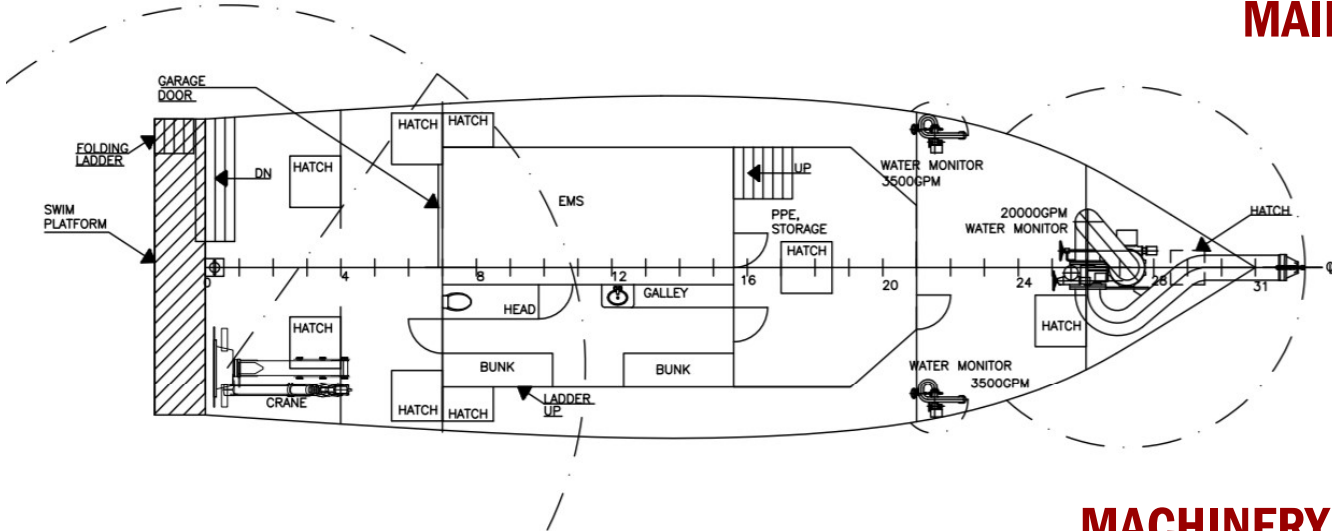

- Jet, spray, and foam-capable monitors
 - 1 x 20,000 gpm
 - 1 x 7,500 gpm
 - 2 x 3,500 gpm
- 300-ft monitor throw
- 8 discharge hose connections
- 4,000-gallon foam capacity
- Fully redundant firefighting system
- Protective water curtain
- Ambulance-sized EMS treatment space
- Capable of 24-hour operation
- 360° visibility from pilot house
- Swim platform and ladder
- SCUBA diver support
- Meets Dynamic Positioning I standards
- 12,000 lb towing capacity
- 1.5 LT telescoping crane

Meet the Team

JACK BECKER

Hometown: Manhasset, NY

Internship Experience: Shipyard Intern at Metal Shark, Cadet on Matson Container Ship, Engineering Intern at Metal Shark

Hobbies: Fishing, Volunteer Firefighter

Career Interests: Planing Vessels

JACKSON JUSKA

Hometown: Avalon, NJ

Internship Experience: Shipyard Intern at Metal Shark, Cadet on Crowley Container Ship, Engineering Intern at Metal Shark

Hobbies: Water Sports

Career Interests: Salvage, Desalinization, Disaster Relief

MAGGIE MAGUIRE

Hometown: Navarre, FL

Internship Experience: Shipyard Intern at Westport Yachts, Cadet on Stolt Chemical Tanker, Engineering Intern at DLBA

Hobbies: Fishing

Career Interests: Recreational Vessel Design
