42 Matching Gift Organizations

OUR MISSION: To inspire and educate tomorrow's leaders in an extraordinary learning community focused on engineering and design in the marine field.

Webb Institute:

- Provides a rigorous education in the principles of engineering and the fundamentals of naval architecture, marine engineering and related marine technologies;
- Develops skills that will enable graduates to become leaders in, and make significant contributions to, their chosen profession and the wider community;
- Instills in graduates the highest ethical standards and sense of professionalism;
- Cultivates curiosity in the arts, sciences and humanities, and provides the background and encouragement necessary to support lifelong learning; and
- Perpetuates the values of William H. Webb.

The Times They Are A-Changin'

MARK MARTECCHINI '79, P'09
President

Commencement 2025 saw several records broken. Webb graduated its largest class—26 students—of which nine (35%) were women, another record. Starting careers for Webb grads ranged from grad school to traditional to leading-edge employers (SpaceX), to a first-ever Olympic sailing campaign. Webb grads continue to amaze us all!

Our amazement didn't conclude with the Class of 2025. The Class of 2029, which also includes nine women, excelled in the Freshman Boat Race; everyone made it around the course in their unique craft. As I passed the auditorium one night, the Jazz Band was laying down an excellent track: Dave Brubeck's challenging *Blue Rondo a la Turk*. Webbies today excel in areas we didn't dream of in the 1970s—hats off to them!

While education policy changes from Washington—endowment tax, research cuts—had no impact on Webb, the same cannot be said of developments in maritime sustainability. At October's Marine Environment Protection Committee meeting of the International Maritime Organization, oil-producing countries, including the U.S., persuaded others to adjourn the adoption of the Net Zero Framework for one year (or will it be longer?), the expected next step in decarbonizing the world's shipping industry. The federal government has pushed back against offshore wind projects, some in late stages of development and construction, impacting careers of Webb grads.

Webb continues to develop and promote maritime sustainability in its curriculum and supporting programs such as November's *Sustainability and Innovation in Ship Design and Operations Conference*. Artificial intelligence and autonomous operations are coming fast, especially in the naval sector; Webb students must be familiar with all these emerging areas. Speakers from sector leaders generate excitement amongst students on campus visits and Monday lectures; new doors are opening for internships and graduates.

Initiatives to revitalize U.S. shipbuilding are starting to move forward, though funding for major investments remains a wild card. Partnerships with South Korea are emerging as a lever for both funding and shipbuilding know-how.

This year also marked many facilities improvements on campus, one of which is the ongoing volunteer-led boathouse renovation. Join us for Homecoming on May 16, 2026 to see the new look!

The Planning Committee, led by Mel Wolfgang '93, kicked off a new Strategic Plan cycle which will include white papers, offsite sessions, and debates in 2026. This work ties in with the Finance Committee's Long-Range Financial Assessment, ensuring that we spend prudently on operations and capital investment in facilities, in alignment with available resources, with the goal of a sustainable draw rate.

A banner year for fundraising concluded in June 2025, marking a great start to our *Investing in Excellence* Campaign. Once again, our dedicated alumni—who contribute at a nation-leading 71% participation rate—led the way in sustaining our operations, key to our reputation for excellence. Thank you all for your support, past, present and future!

Launching Exciting Initiatives

JON J. LABERGE '76
Chair of the Board

As I sit down to write my inaugural message as Chair, I want to start by thanking my immediate predecessor, Bruce Rosenblatt (Hon.), for the engaged and effective Board of Trustees that I have inherited from him. I am honored to lead Webb's Board as we strive to carry on the legacy of William Webb.

I would also like to thank Alison Granger P'14, (Hon.), Monique Sinmao '93, and Sherice Arman, who have completed their service to the Board in the past year. We welcome David Yim and Ray Sheldon '73; and Lina Tennenbaum '21, as our new 'Recent Graduate' Board member. I am also pleased to announce that Reneé Tremblay '20, the 'Recent Graduate' member for the past several years, has agreed to continue her service as Trustee.

Webb continues to thrive under the leadership of President Mark Martecchini. Our facilities are in better shape than they have been in decades and our faculty is fully staffed for the first time in recent history, but the administration is not resting on its laurels: it has ongoing plans to upgrade and renovate a number of other buildings on campus, and the Dean is putting finishing touches on an updated curriculum that will be phased in over the coming years.

Without distracting from the administration's focus on Webb's physical plant and academic program, the Board is now expanding its focus to address our financial sustainability. Elsewhere in this report you will read of Webb's plans for the recently launched *Investing in Excellence Campaign*, which will strengthen the endowment, and provide a more stable source of funding for Webb's operations.

Hand-in-hand with the new fundraising campaign, Webb's Board and administration will be conducting a Strategic Planning process this coming year to ensure that our strategic direction is aligned with our available resources. Emerging technologies like Artificial Intelligence, autonomous operations, and sustainability will each have profound impacts on the future of the maritime and defense industries, and Webb must position itself to train the naval architects and marine engineers who will assume leadership roles in the new world that will be enabled by these technologies.

Looking forward to 2026—which will be the semi-centennial celebration of my own graduation from Webb—we must continue to work hard on a number of fronts, but I am confident that Webb is well positioned for the coming decades in terms of its facilities, its finances, and the relevance of the educational experience that we provide for our students.

The Burr Family: Investing in Webb's Future

ANTHONY R. ZIC
Director of Development

Arthur ("Art") Burr '54 and his wife, Marilyn, have shared a lifelong belief in the value of hard work, integrity, and education—and Webb Institute has been at the heart of their story. Art often reflects on how Webb shaped his future, providing the foundation for a fulfilling career and a lifetime of opportunity. "A free education at Webb was an extraordinary gift," he recalls. "It changed everything for me."

After graduating in 1954, Art joined the U.S. Navy, where he worked under Admiral Hyman Rickover on nuclear submarine systems. Shortly afterward, he married his college sweetheart, Marilyn Seeberger. Together, they built both a family and a business grounded in the same values of excellence and perseverance that defined their Webb experience.

Following his passion for boats, Art later transitioned to the Navy's Small Boat Division, helping design the fleet's fiberglass vessels. A chance meeting with boatbuilder Don Aranow inspired Art and Marilyn to launch Burr Yacht Sales from their backyard in Springfield, Virginia—financed by a $6,000 bank loan and fueled by determination. What began as a modest venture grew into a thriving enterprise known for its craftsmanship, customer service, and strong relationships, representing renowned brands such as Bertram and Fleming Yachts.

When the time came to retire, the Burrs passed the business to three long-time employees, continuing their tradition of loyalty and stewardship.

That same spirit of generosity has defined the Burr family's relationship with Webb. Over the years, Art and Marilyn have supported numerous initiatives on campus, including upgrades to the *Arthur and Marilyn Burr Junior Classroom* and the *Benjamin C. Keeler Reading Room*—tributes to the professors and classmates who shaped their Webb experience.

In alignment with Webb's *Investing in Excellence* Campaign and its focus on strengthening the Institute's endowment, the Burrs have gone even further—establishing the fourth full-tuition scholarship carrying the Burr family name. Their most recent scholarship is in memory of their beloved daughter, and reflects the family's enduring values of opportunity and education. Each of these scholarships ensures that future generations of Webb students can pursue their education free from financial burden, just as Art once did. "My parents didn't have the money to send me away to college. Marilyn and I are happy to provide opportunities for students who deserve it most."

Through support of scholarships and provisions in their estate, the Burr family have made a Keystone-level commitment—the first of its kind—for the *Investing in Excellence* Campaign. Their extraordinary gift stands as a testament to the transformative power of a Webb education and the Burr family's deep belief in its mission.

"Webb gave me my start in life," Art said. "Supporting Webb ensures that future generations can share in the same opportunity and community that meant so much to us. If Webb has touched your life the way it has ours, there's no better time to give back and help secure its future."

Marilyn Burr at the Webb Ring Dance, 1952

Leading the Charge: Investing in Webb's Future

R. KEITH MICHEL '73 &
BRUCE ROSENBLATT (HON.)
Campaign Co-Chairs

October 29, 2025 marked an important milestone for Webb—the public launch of *Investing in Excellence: Advancing the Vision*, an ambitious fundraising campaign that will help ensure the long-term financial sustainability of the Institute.

This moment represents the culmination of years of dedication by countless alumni, trustees, faculty, and friends who share one common goal: ensuring that Webb remains one of the finest and most distinctive engineering colleges in the nation. We are pleased and proud to take a leading role in this effort.

This campaign is committed to strengthening Webb's endowment—the cornerstone that sustains Webb's promise of a full-tuition scholarship for every student and supports the exceptional education that defines the Webb experience. Through our combined experience as Trustees and as long-standing employers of Webb graduates, we understand how transformative that experience can be. In many ways, Webb has shaped our lives and careers, as it has for generations of Webbies before and after us.

What makes Webb truly exceptional is not just the quality of its education, but the sense of purpose, community and family it fosters. Students come here with a passion for learning, often with a love for engineering and the sea, and always, a commitment to excellence. They graduate as engineers, architects and leaders, equipped to make an immediate impact in ship design, naval architecture, and far beyond. Whether in maritime innovation, business, or technology, Webb graduates are recognized for their rigor, creativity, and integrity.

Investing in Excellence is about sustaining that legacy for generations to come. The campaign focuses on expanding scholarships, creating endowed professorships, and enhancing Webb's Annual Fund—each a vital component of financial stability and academic strength. These investments ensure that Webb can continue offering every student a full-tuition scholarship, regardless of background or circumstance.

We are humbled by the generosity already demonstrated by Webb's extended family. Through the dedication of our Campaign Cabinet and early supporters, more than $26 million has been raised towards our $40 million goal, including our first *Keystone-level* commitment, for which we are grateful to the Burr family. Each gift, large and small, reflects the collective spirit of a family that believes deeply in Webb's mission and its lasting impact.

In the months ahead, regional events will bring the Webb family together across the country to celebrate our progress, share stories, and invite others to join this historic effort. I hope you will join us to learn more about the campaign and reconnect with old friends.

As Co-Chairs, we are inspired by the same spirit that has guided Webb for 137 years—a belief that access to an exceptional education should never depend on financial means. Webb has always been more than an institution of higher learning; it is a family bound by shared values, lifelong friendships, and a commitment to giving back.

We invite every member of the Webb family—alumni, parents, and friends—to help ensure the success of this campaign. Together, through *Investing in Excellence*, we can secure Webb's future and continue a legacy of opportunity, innovation, and excellence for generations to come.

Investing in Excellence:

1. What is the Investing in Excellence Campaign?

The Investing in Excellence (IIE) Campaign is a **comprehensive fundraising effort** supporting Webb Institute's mission and strategic priorities. The campaign includes all gifts and pledges received by June 30, 2029, **including Webb Alumni Fund (WAF)** gifts (*see Section 5*). Our goal is to raise a minimum of $40 million.

2. What types of gifts count toward the campaign?

The IIE Campaign includes nearly all forms of charitable contributions. These include cash, securities, closely held stock, real estate, personal property, gifts-in-kind, charitable trusts, life insurance, and bequests. It also includes revocable and irrevocable planned gifts made from July 1, 2023, provided they meet campaign requirements. (*see section 4*).

3. How do pledges work?

Donors will be encouraged to commit multi-year pledges which need to be fully satisfied by June 30, 2029. These commitments, apart from irrevocable planned gifts, are not intended to be legally binding.

4. What are planned gifts & how are they counted?

Planned gifts—such as bequests, charitable trusts, and beneficiary designations—allow donors to make a future gift to Webb. For the IIE Campaign, planned gifts will be celebrated as part of the effort if the donor is at least 70 years old by June 30, 2029 (in the case of two-life arrangements, both spouses must become 70 by this date). In cases where a planned gift was previously recognized by Webb (including during the *Campaign for Webb*), any increases to these intentions may count as part of IIE success.

5. Does the IIE Campaign include gifts to the Webb Alumni Fund (WAF)?

Yes! The WAF has been, and will continue to be the bedrock of financial support for Webb. Every gift made to the WAF is also counted as a gift to the IIE Campaign. Conversely, any special cash gifts made in recognition of the IIE Campaign are counted in the overall WAF success, and your class giving and participation totals, in the year in which they are received. This is a comprehensive campaign; every dollar counts!

6. How can I help?

Share campaign news with your network. If your personal or professional network includes individuals, corporations, or foundations that you are willing to help connect with Webb for future support, please contact Webb.

7. How is the IIE Campaign different from the Campaign for Webb?

Although Webb's endowment achieved significant growth during the Campaign for Webb (CFW), one of the primary objectives of the CFW was to build a new academic facility (*Couch Academic Center*), and to increase the number of dorm rooms in Stevenson Taylor Hall. The primary focus of the IIE Campaign is to grow the endowment so that we can help to ensure that our full-tuition scholarship model thrives for generations of future Webbies. This will be accomplished through support of scholarships, professorships, and enhanced contributions to the Annual Fund.

8. Who can I contact with questions?

Please contact Anthony Zic, Webb's Director of Development with any questions at azic@webb.edu or 516-403-5375.

Boathouse Renovation Project

by Keith Michel '73 and Rich Celotto '73

The Goldbach Boathouse is being renovated this summer and fall thanks to a herculean effort by members of the Webb community. The project was initiated by Keith Michel '73, who recognized its importance during his tenure as Webb's President. Upon his retirement in 2022, he finally had the time to make it happen and convinced his classmates to make an extraordinary 50th anniversary gift to secure the resources needed. Class Agent Rich Celotto '73 stepped up to coordinate the fundraising efforts. In spite of the anticipated generosity of the donors contributing to this project, it quickly became apparent that the only way the project could be completed was for the labor to be performed by alumni volunteers! This work is being led by Keith and Joel McMinn '75, both of whom have considerable home construction/renovation experience.

Keith gathered stakeholders to begin developing the project design. In February 2023, a concept design session was attended by Webb students from the Sailing Team and Social Committee, Yacht Club faculty advisors Neil Gallagher '78 and Rick Royce, President Mark Martecchini '79, Facilities Director John Ferrante, adjunct professor and architect Carol Bentel, and Keith, Rich, and Ray Sheldon from the Class of 1973. Key decisions during this meeting included demolishing and rebuilding the front room with improved functionality and lowering the floor to achieve ADA access, widening the patio area, installing a truss-supported roof over the patio to provide protection from the sun and the rain during regattas and social events, adding brick veneer to match the campus style, and providing a drying area for equipment on the back of the boathouse.

Keith Michel '73 and Joel McMinn '75

Although the renovation project budget initially seemed too ambitious, members of the Class of 1973 and 1995 rose to the occasion with gifts and pledges of all sizes, raising an astonishing $208,000! Even with volunteer labor, this would not cover the full cost of materials and the contracting for heavy industrial work such as excavations and foundations. Accordingly, the Board of Trustees agreed to set aside $50,000 to supplement the class gifts, as needed.

Architect Kirk Lehman (father of Juliette Lehman '22) generously volunteered to lead the project through the approval process for an expanded patio footprint from New York State's Department of Environmental Conservation (DEC). After a DEC rejection for "encroaching on the coastal erosion hazard area," the patio was scaled back slightly and the environmental permit was finally granted in February 2024, pushing back groundbreaking to the summer of 2025.

During the fall of 2024 and winter and spring of 2025, architects from Bentel & Bentel ensured that the project design met the rigorous building code standards for a waterfront structure, working out details with the designers and structural engineers at Enwood Structures (the company providing the kit of glulam arches and tongue-and-groove planking for the patio roof), and Keith and Joel who ensured it could be built.

Doug Loeser '73, Joel McMinn '75, Joan Steber, Rich Celotto '73, Keith Michel '73

With the clock ticking and pressure building, the drawing and calculation package was submitted to the Glen Cove Building Department (GCBD) in May 2025. Thanks to an earlier briefing provided to the GCBD by President Martecchini and John, the permit was approved relatively quickly on June 25. In the meantime, the leadership team had already begun planning for a two-phase boathouse volunteer "summer camp."

The first phase began on June 30 with the demolition of the front room and the excavation of the site for the foundations for the new front room, the roof posts, and the new patio stem walls by local contractor and good friend of Webb, Paul Todd. Keith, and his friend Joan Steber who became our Logistics Manager, co-construction lead Joel, and Rich arrived on July 8 to help set up the summer camp and continue recruiting and scheduling volunteers for the summer. Mark Martecchini and Gailmarie arranged for volunteers to stay in student dorm rooms and the gym apartments, and to use the Student Kitchen for cooking meals.

Starting the week of July 8 and through August 12, a cadre of volunteers from multiple classes joined Keith, Joan, and Joel to turn the new boathouse dream into reality. These included Geoff Fuller '72, Jim Dwyer '72, Doug Loeser '73, Jon LaBerge '76, Steve Shepstone '77, Bill Hale '78 and his wife Barbara Lamb, and rising sophomore Joseph Giresi '28, who was serving as a student counselor for Webb's Summer Engineering Academy (SEA). Laboring in the heat, fighting off biting red ants and swarms of beetles, and inhaling plenty of dirt, Paul Todd's crews, under the supervision of John, Keith, Joel, and Rich, demolished the front room, excavated and built forms for foundations and stem walls, and poured the first concrete footers. Meanwhile, the volunteer crew stripped off the old tiles from the garage roof and reinforced the roof with sister rafters. The wooden garage trim was stripped, and six 800-lb roof posts were exactly sited in their foundations before framing began for the new front room and its roof. Next, the trimming and adhesion of hundreds of thin brick veneer pieces onto steel backing grids, which had laboriously been mounted onto the cinder block walls, took place. Following the volunteers' departure in early August, the stem walls and post foundations and the patio and floor of the front room were poured.

Phase two was completed in October. Led again by Keith and Joel, volunteers for this phase included Tim Knowles, Dave Homiak, Dave Little, Christian Saether and his brother Eric, and Chris Tupper from the Class of 1975, Rich '73 back again, and Joel's daughter Beckah McMinn. This crew erected the glulam arches and installed the roof planking, which was pre-stained by a crew of student beavers. This new pavilion covers the patio and ties into the existing garage roof. Other tasks accomplished during October include electrical wiring for outlets and lights in the boathouse, lights and fans for the patio, and installation of a cupola located at the intersection of the legacy garage and new patio roof lines. Installation of the brick veneer was also completed. During the coming months, a subcontractor will install the faux slate roof shingles and John Ferrante's team will lay bluestone to form the patio flooring and apply mortar around the bricks. Volunteers will return in May to complete the outfitting of the boathouse in time for a grand re-opening at Homecoming 2026. Should you wish to volunteer your labor for the final phase of this project, please contact Keith Michel at kmichel@webb.edu.

We extend our appreciation to our generous classmates (1973), the support of the Class of 1995, alumni volunteers from the Classes of 1972, 1975, 1976, 1977 and 1978, Joan Steber and Beckah McMinn, President Martecchini and staff, students, and the Facilities Department, all of whom contributed to achieving the remarkable transformation of the Boathouse into an enhanced facility that will support waterfront sports and social events for years to come.

A Successful Academic Year

MATTHEW R. WERNER '95, PG'97
Dean & ABS Chair of Naval Architecture & Marine Engineering

The Webb education is grounded in a balance of theoretical and practical learning. Work outside of the classroom—assignments, laboratory reports, and projects—is an essential component of the program, enabling students to master the subjects that make up Webb's curriculum. Through this work, students build subject matter expertise and confidence upon a solid foundation of math, science, and the engineering sciences. This approach has successfully served generations of Webb students and continues to do so to this day.

The explosion of accessible Artificial Intelligence (AI) tools creates new opportunities and challenges at all levels of education, including at Webb. Tasks that students in the past would have had to master through hours of work can now be accomplished with a well-crafted prompt entered into a large language model (LLM). A student obtaining solutions without the act of learning is a concern for all educators when considering the impact of modern AI tools. *How can course instructors and their students benefit most from the power of AI while avoiding the dilution of student learning through the bypassing of the "do" part of the learning pathway?* This is a subject that education experts are grappling with globally, and a challenge that has not yet been completely resolved.

At the same time, the technology we fear may be detrimental to learning can also empower students and practicing engineers to be more efficient and effective, ultimately leading to improved solutions to complex problems. Understanding how to effectively and ethically employ AI tools and capabilities will be key to the careers and lives of our current and future students. As educators, Webb faculty members are working collaboratively to navigate this time of rapid change, aiming to maintain the level of educational excellence for which Webb is known while equipping our students with the knowledge and skills to utilize AI-based technologies in their careers.

This challenge is not unique to Webb. Educators worldwide are actively learning to adapt to the new AI landscape. Like the PC revolution of the late 80s and 90s, the key to understanding AI, and ultimately benefiting from it, is through experimentation and engagement, which is precisely what Webb's faculty is doing. Through Google Workspace for Education, Webb faculty, staff, and students have access to Google's Gemini AI and related tools, making it easy to explore and leverage AI's strengths and capabilities. Webb faculty members are prioritizing professional education and development activities, such as courses, training programs, conferences, and webinars, to learn how AI can support and enhance Webb's educational programs. Simultaneously, the faculty is evaluating how best to incorporate AI education into a comprehensive naval architecture and marine engineering program.

One example of how AI is impacting Webb's academic program today is our adoption of MATLAB as the programming tool for the first-year programming course. The switch to MATLAB is more than just a change in programming language; it presents a shift in how students will learn to program. MATLAB's active AI programming assistant, Copilot, supports students as they learn and develop programs to solve problems. Additionally, MATLAB's capabilities and toolboxes provide native AI features that support advanced coursework and senior thesis projects involving simulation, optimization, data analysis, and machine

learning. A second example is the addition of a course in control systems and autonomy, which will develop students' expertise in these subject areas while exploring how AI is enhancing system capabilities.

Recent contributions to the ***Investing in Excellence*** campaign are supporting the faculty's development of an "AI Sandbox" that will be located in Webb's Couch Computer Laboratory. The purpose of the "AI Sandbox" is to create an environment with the resources to support student and faculty engagement with AI and machine learning (ML). Dedicated computing resources, software, and hardware will empower the development of real and simulated AI and ML applications. The Sandbox will be equipped with an array of actuators and sensors for collecting data and measuring system performance. Cloud-based computing will be leveraged to support complex AI and ML system development. The facility is intended to support faculty research, student coursework, and senior theses. The Sandbox will be a valuable resource for implementing the revised curriculum resulting from our recent review of Webb's academic program; when coupled with the capabilities of the Innovation Lab, Webb will have the resources to merge hands-on learning with innovation like never before.

The AI revolution is significant, and it offers Webb the chance to reinforce its place as a leading educational institution. Historically, Webb's academic program has successfully adapted to new technologies, including digital computers and advanced analysis tools like finite element analysis (FEA) and computational fluid dynamics (CFD). Each of these innovations transformed engineering practice and education, and the Webb program was no exception. AI is no different; change is inevitable, so Webb will embrace it and leverage it.

Through strategic investments in talent and technology, Webb is evolving to prepare future naval architects with the knowledge and skills needed to leverage AI's potential for the marine industry. Ultimately, engaging with AI will enhance Webbies' value to industry and society, while also bolstering Webb's reputation as a leading provider of engineering education. Personally, I am energized by the challenges and opportunities that AI presents to Webb and the marine industry. Imagining what Webbies—empowered by AI—will be able to accomplish should excite us all.

Class of 2025

Vision is Never Static

HAMPTON K. DIXON '11
Development Committee Chair

It all started with a shipyard. The remarkable career of William H. Webb could have stood on the merits of shipbuilding alone, but he had a vision of something more lasting: a school to educate the next generation and a home for aged shipbuilders. Mr. Webb invested his personal fortune to achieve that vision, and as Webb Institute enters its 137th year, it is that vision that we all continue to generously support.

Vision is never static, and we now find ourselves at a moment in time when together we can advance Mr. Webb's vision. The Institute has top-notch facilities, a brilliant faculty, and phenomenal graduates that are excelling in much-needed engineering roles across the country. But our job is not *yet* done. We *can* do more.

We can build on the investments made before us to ensure Webb's vision continues to grow. As you read this Annual Report, and as we head into 2026, you will hear more about our new campaign, *Investing in Excellence*. I am excited to be at yet another inflection point in Webb's history when we can come together to grow the endowment by supporting scholarships, endowed faculty positions, and elevating our support of the Annual Fund.

But I'm getting ahead of what should be a retrospective—you will soon read about the 2024-25 giving year, which serves as a reminder of the extraordinary things people can achieve when united for a cause that is dear to us all. This giving year featured extraordinary estate gifts, establishment of several new tuition and Flex scholarships, and record-breaking success in the Annual Fund.

Our fundraising success would not be possible without the hard work of many people. I am thankful for my colleagues on Webb's Development Committee for their dedication, thoughtful perspective, and stewardship. The Committee is deeply appreciative of the volunteer efforts of Webb Alumni Fund Chair Jake Neuman '93, Webb Planned Giving Chair John Malone '71, Webb Parents Annual Fund Co-Chairs Jeff & Peggy Basti P'25 and Kathy & Andy Ells, P'27, and Webb Parents of Alumni Fund Co-Chairs Tom '89 & Jen '91 Waters P'20 and Alison & Hal Granger P'14 (Hon.), for their continued leadership of Webb's volunteer fundraising committees. We all appreciate the work of each of the Class Agents, parents, alumni, and friends of Webb who have donated their time and energy to personally contact Webb's donors and cultivate new relationships.

Our volunteers are ably and enthusiastically supported by Webb's Development Office staff under the direction of Anthony Zic. Joe Cascio, Shanna Hamilton, and Gailmarie Sujecki (Hon.) have worked together and with their Webb colleagues to continuously enhance and expand the fundraising reach of the institution.

We're pressing on at Webb Institute, and I thank you for your generosity. I hope you'll continue to be a member of the vibrant community advancing the vision that started 137 years ago.

A Century of Consecutive Giving:

Reuben Taylor '55 Builds a Legacy for the Future

ANTHONY R. ZIC
Director of Development

At the 2025 Webb Heritage Society Dinner & Reception, a longtime member of the Webb family, Reuben Taylor '55, made a heartfelt and historic announcement: he has made provisions in his estate to ensure annual contributions continue until he reaches 100 consecutive years of giving—a goal he is on track to meet by 2055.

A staunch member of the Webb Every Year (WebbEY) program, Reuben has supported the Institute for 70 consecutive years. But his new commitment sets a bar few could imagine: a full century of giving to the school that shaped him.

"I've been proud to give back to Webb every year for seven decades," Reuben shared. "But recently, I realized I might be able to do even more, something that lasts far beyond my own lifetime. The very first year WebbEY pins were awarded, I was as amazed as anyone that I had an uninterrupted fifty-year giving record! Then, a few years later, my name was again called for a 50-year WebbEY award. In the spirit of Webb's Student Honor Code, I had to tell the assembly I'd already received a 50-year pin, and therefore had to relinquish the second one. However, as I went to the podium, I had a different thought. Since I hadn't missed any yearly giving since the first award, I decided to keep the second pin as a symbol of 100 years of continuous giving, which to me meant that I was on the hook to make annual contributions through 2055."

To ensure the plan is fulfilled, Reuben has entrusted his son, the executor of his will, with carrying out his wishes of providing annual gifts to Webb after his lifetime, until the 100-year mark is reached. His unique approach combines recurring giving, planned giving, and annual support, checking virtually every box on the giving spectrum. The message behind his commitment is clear: Reuben wants Webb to thrive for generations.

"Webb gave me so much—not just an education, but direction, discipline, and lifelong friendships," Reuben said. "I want future students to feel that same support, even from someone they'll never meet."

Reuben Taylor's gift is more than generous—it's visionary. It reminds us that legacies aren't just built in lifetimes, but across generations. With this 100-year commitment, and a freshly minted, one-of-a-kind 100-Year WebbEY pin, he ensures that the spirit of giving at Webb will endure for decades to come.

President Martecchini awards Reuben Taylor '55 with a 100-year WebbEY pin.

Setting a New Fundraising Record!

JAKE M. NEUMAN '93
Chairman of the Webb Alumni Fund

This year's Webb Alumni Fund (WAF) total of $2,657,972 raised surpassed last year's record giving level of $2,588,845. We also achieved a nation-leading 71.3% giving participation rate, surpassing both our fundraising and participation goals.

Huge thanks to the generous alumni, Class Agents, Development Office team members, and students for their efforts during the thank-a-thon and phone-a-thon! WAF success is founded on a commitment by every member of this tightly knit group.

We are embarking on a new campaign, *Investing in Excellence,* to further strengthen the endowment. Webb's Annual Fund—which is supported in large part by the Alumni Fund—provides for approximately one-third of Webb operations, which reduces the draw on Webb's endowment. The WAF supports full-tuition scholarships, professors' salaries, extracurriculars including sports and clubs (and much more), all of which support the school's vision and objectives. A full list of named funds supported by your gifts is provided on pages 39-40; for more information about Webb's finances, see pages 37-38.

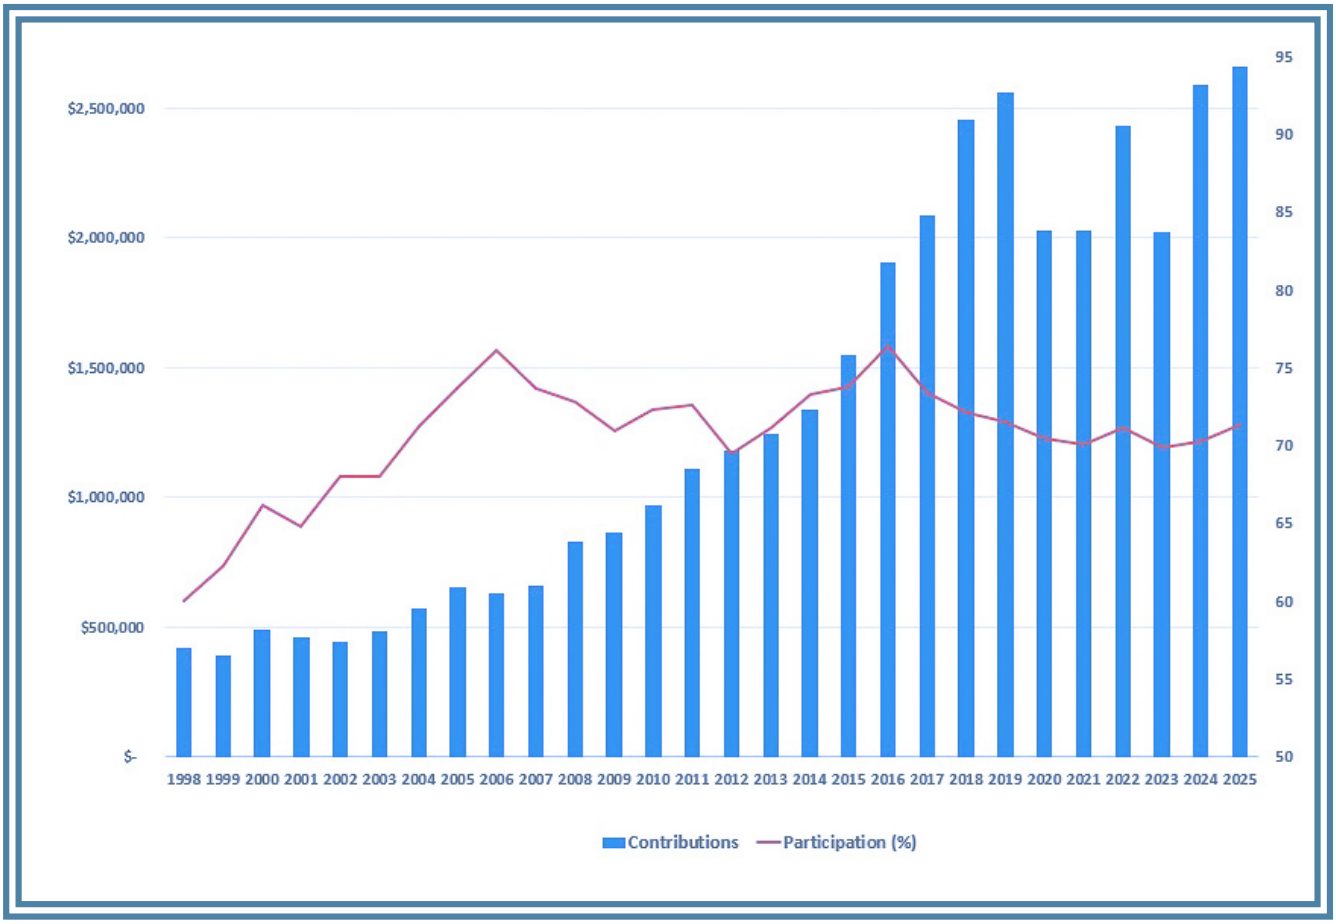

Every WAF dollar counts toward the goal of strengthening Webb's endowment. During Webb's previous fundraising effort—the *Campaign for Webb*—your collective contributions increased by an impressive 91% and 83% of alumni participated by making a gift. I look forward to similar engagement and response by our alumni during this campaign!

We welcome new Class Agents, Pete Fontneau '68, Tom Waters '89, Judson Broome '91, Dan Desio '21, Gunnar Nee '25, and a huge thank you to Class Agents Laurence Krantz '65, John O'Dea '68, Matt Tedesco '91, and Jack Becker '21 for their tireless service to Webb.

Some of the key ingredients that helped to make the WAF 2024-25 a success were special class reunion projects, including:

- Class of '55, led by Horton Lain, provided funding for the new Thorpe Field Scoreboard ($5k) and CNC Lathe ($12,500).
- Class of '70 made contributions in memory of Professor George Petrie '70.
- Class of '73 (two-year project), led by Rich Celotto, raised over $200,000 for the renovation of the Goldbach Boathouse.
- Class of '75, led by Chris Tupper, raised $50,800 to name a dorm room at Webb.
- Class of '77, led by Rich Gilmore, is mobilizing to establish a new scholarship fund for their upcoming 50th anniversary.
- Class of '85, led by Jen Panosky, has contributed $16,700 to date toward the purchase of an electric golf cart.
- Class of '95, is mobilizing an effort to raise funds for a new scholarship.

WEBB ALUMNI FUND 1998-2025

You can have a big impact on the future of our fundraising success and Webb's financial well-being by:

- **Maximizing your current giving levels** – The WAF average gift is $3,160 and the median gift is $1,000. Maybe these are goals you can strive for or comfortably exceed, depending on your circumstances. Consider your *Week for Webb* and consider a stretch gift or pledge for the duration of the Campaign.
- **Giving EARLIER in the giving year** – The last month of the giving year is chaotic for everyone involved in the WAF; approximately 40% of alumni give during this time. As a result, we miss the opportunity to reach alumni who do not give regularly, or haven't given at all.
- **Serving as an ambassador for the WAF and Webb** – encourage colleagues /classmates/family to increase their giving, and to give as early in the giving year as possible. Sharing your giving strategies (monthly giving, gifts of stock, gifts leveraging donor advised funds, charitable distributions from your IRA, etc.) may inspire a new gift or new giving levels from your peers! Please contact Jake Neuman at wafchairman@webb.edu if you want to serve in a more official capacity.

$3,160 AVERAGE GIFT

WAF Supports: Scholarships, Thesis, Sports, Music, Conference Participation

DID YOU KNOW?

MATCHING GIFTS

Many of your employers offer matching gift programs that can help maximize the impact of your gift, sometimes doubling or tripling your contribution. During the 2024-25 giving year, $82,812 in matching gift pledges were committed to Webb. For most companies, this process is electronic and takes a couple of minutes for you to complete. I would say this is time well spent. See page 42 for a full list of participating partners who have contributed generously through Webb via matching gifts.

STOCK GIFTS

Transferring appreciated stocks, bonds, or mutual fund shares can have a big tax advantage. You get an immediate income tax deduction for the fair market value of the securities even if you originally paid much less for them, and you pay no capital gains tax when the stock is sold.

CREDIT CARD DONATIONS

While quick and convenient, these gifts also come with a cost to Webb—a processing fee of approximately 2.5% plus a transaction fee. To help Webb save money, consider setting up a "bill pay" through your bank's website. Banks typically mail checks to payees, including Webb, free of charge. You can also set up a recurring gift from your bank on Webb's giving page.

IRA ROLLOVERS

If you're 70 ½ or older, you can transfer up to $108,000 from your traditional IRA. You do not recognize the transfer to Webb Institute as income, provided it goes directly from the IRA administrator to Webb; therefore, you are not entitled to an income tax charitable deduction for your gift.

ONE OF THE QUESTIONS I GET ASKED THE MOST: HOW MUCH SHOULD I GIVE?

There is no one size fits all answer to this question. Give what you can afford…give until it feels good…strive to meet or exceed Webb's average gift ($3,160)…Or, give a Week for Webb. A Week for Webb is a concept that began in 1922 through a giving program known as Webb Appreciation Notes. Webb Appreciation Notes were a series of twenty personal notes that every graduating senior was asked to sign, each one pledging annual support of $25.00. The notes were "non-negotiable" and expected to be paid over the first twenty years of an alum's career. This amount closely correlated with the average weekly salary of a new Webb graduate. For some of you, contributing a week for Webb might be a great target to strive for; for others, this is a mark you can and should easily exceed.

WEBBIES PROCRASTINATE

I realize this isn't exactly news, but more than 20% of our Webb Alumni Fund donors wait until the last two weeks of the giving year to make their gift. Consider making your gift before or on Webb's Giving Day, which coincides with May Homecoming; this will really help enhance our fundraising outreach.

WEBB HERITAGE SOCIETY

Regardless of how much you can afford to give today, you can be an important part of helping Webb's future by becoming a member of the Heritage Society. This can be accomplished in many ways, the simplest of which is designating Webb as a beneficiary of your retirement account or making a bequest in your will/trust. Please consider joining the 182 living members of the Heritage Society who have already taken this step!

If you have questions on any of the programs mentioned above, please call our Development Team at (516) 759-2040.

2024-25 WILLIAM H. WEBB SOCIETY

In the pages that follow, we acknowledge all of our donors in the Webb community for their generosity and loyalty—alumni, trustees, friends, parents of alumni and students, family, faculty, staff, students, foundations, and corporations. Thank you for your continued support of Webb. Your giving has a profound impact on every student, faculty member, facility, and program.

2024-25 WEBB EVERY YEAR (WebbEY) PROGRAM

The Webb Every Year Program (WebbEY) *was established during the 2006-2007 to recognize our donors' consistency of support, regardless of gift amount.*

In order to attain the status of becoming a WebbEY, a donor has to contribute to the Annual Fund for a minimum of five consecutive years. To show appreciation to our consecutive giving donors, Webb Institute now mails a pin to those in the five, 25, and 50 year consecutive giving categories.

Consecutive giving allows Webb to plan for the future. We wish to thank the following donors for their loyalty and generosity and for attaining the distinct honor of achieving WebbEY status this year.

The individuals listed below reached the indicated WebbEY giving milestones in 2024-2025. For a full list of WebbEY members, please go to www.webb.edu/webb-every-year-program.

2024-25 CUMULATIVE GIVING

The William H. Webb Society honors and celebrates the extraordinary commitment of Webb's most loyal contributors—those donors whose cumulative giving exceeds $25,000. We extend our sincere appreciation to the following alumni, trustees, parents of alumni and students, friends, corporations and foundations, who are members of the William H. Webb Cumulative Giving Society.

A Message from the Parents of Alumni Fund Co-Chairs

Thank You!

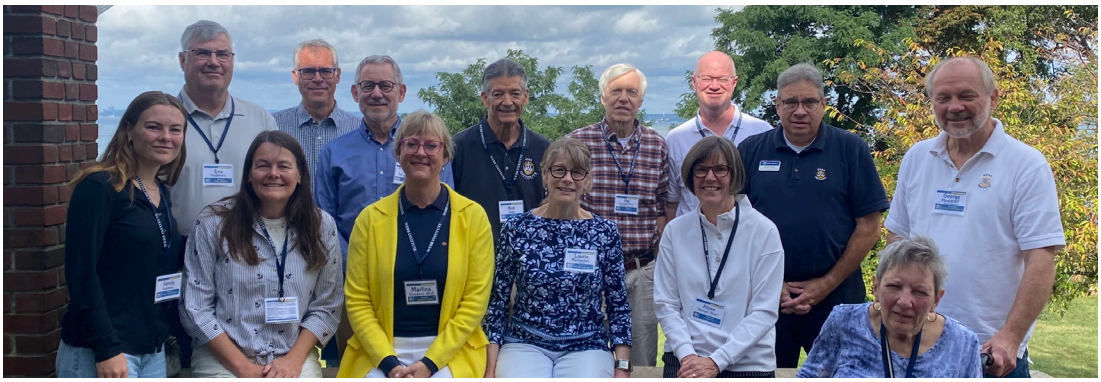

Hal & Alison Granger P'14 (Hon.)
Co-Chairs

Tom '89 & Jennifer '91 Waters, P'20
Co-Chairs

We continue to be inspired by the generosity of parents of Webb graduates; there must be something in Webb's waters—a remarkable 119 families contributed $265,224 to the 2024-25 Parents of Alumni Fund. Thank you all for your continued generosity!

We are grateful to President Mark '79 and First Lady Laurie Martecchini, P'09, for continuing the tradition of hosting a special breakfast reunion of Webb parents of alumni at the President's House. This event is a great opportunity to meet old friends and make new ones, while sharing stories of our Webbies. We then watched the Freshman Boat Race, which featured clear skies and enthusiastic families cheering on their students. We hope you will consider joining us for next year's festivities.

The generous support of this special group of Webb family members is a testament to the long-lasting effects of the Webb student experience. We are grateful that our children enjoyed an unparallelled academic and social experience during their four years at Webb, and the lifetime of friendships and professional networks which continue to help propel their successes.

Parent of Alumni Fund members during this fall's Family Weekend.

New member (n) - Honorary alumnus/a (Hon.) - Spouse of deceased alumnus/a (S) - Exchange student (E)- The names of deceased donors are *italicized*.

We Appreciate Your Generosity!

Andy and Kathy Ells, P'27
Co-Chairs of the Webb Parents Annual Fund

We were thrilled to be on campus in September for Webb's Family Weekend. The opportunity to meet new and catch up with returning families is something we look forward to each year!

On that Saturday, we kicked off the 2025-26 Parents Annual Fund with a special breakfast hosted by President Mark and First Lady Laurie—we are so grateful for their hospitality. We are fortunate to work with a generous and dedicated group of 11 parent families who serve as Parent Annual Fund volunteers. In addition to making their own monetary contributions, these committee members network with parents to secure support for the school while balancing busy lives.

During the 2024-25 Annual Fund, 60% of parents made contributions totaling $118,888. THANK YOU to each and every one of the 63 families for their support. These gifts have a direct and immediate impact on each student's Webb experience, from social to academic. Most importantly, your gifts help to sustain full-tuition scholarships for current and future Webbies!

Parents Annual Fund Committee during Family Weekend 2025

Webb Realizes $5.25M from Planned Gifts in FY25

JOHN A. MALONE '71
Planned Giving Chair

Every year Webb's planned giving team strives to grow the Heritage Society[1] without knowing when we might see tangible results. Well, we certainly saw tangible results in FY25 (July 1, 2024 – June 30, 2025)! It was a year for the record books, as Webb received $5,255,609 in planned gifts—by far the largest amount in any of the last 10 fiscal years—and representing 39% of the $13.6 million that has been contributed via planned gifts over those 10 years. Our celebration is tempered only by our sadness in the passing of members whose bequests were realized in FY25: Theresa Burr (daughter of Arthur Burr '54), Robert Kistler '46, William duBarry Thomas '51, Barbara Aster (Friend of Webb and daughter of Carl Aster 1925), Joseph Burns '62, Richard Thorpe '55, and Douglas Gluntz '57.

We welcomed 11 new Heritage Society members in FY25: Robert Bolling '97, John Daidola (former Webb professor), Victoria Dlugokecki '88, Payne Donaldson '24, Rayne Duff '25, Edward DuMont (son of R. Peaslee DuMont '32), Ashley Farrell '25, Konrad Freischlag '24, John Kirk '23, Abner Mills '24, and Christopher Tupper '75. We are very pleased to see a growing trend of recent Webb gradates joining the Heritage Society, with two new members from the freshly minted Class of '25, three new members from the Class of '24 (joining Kenna Reed '24 who became a member in her senior year), and one new member from the Class of '25. Sadly, eight members passed away or were reported deceased in FY25: Joseph Burns '62, Theresa Burr (Friend), R. Marks Forssell '55, Paul Hayes '54, Wilma Kehl P'91 & GP'20, Thomas Manuel '54, Capt. Edmund Mortimer PG'63, and Peter Van Dyke '60. With a net increase of three members in FY25, we reached a new all-time high of 182 living members in the Heritage Society as of June 30, 2025. The full list of members, both living and deceased, is on pages 33-34 of this Annual Report.The tables below show year-over-year changes in membership, broken down by alumni class decade and by constituency.

Included in the constituencies above are ten parents of alumni, four members of the Webb faculty, and two members of the Webb administration and staff, further demonstrating the breadth of membership in the Heritage Society. 63% of Webb Trustees, and 73% of the Webb Alumni Association (WAA) Executive Committee, are members. 59 Webb classes spread over seven and a half decades are represented in the Heritage Society. The top classes ranked by the number of members, and by percentage of living members in the class, are listed in the table below.

Alumni Class Years	# of HS Members, End of FY25	# of HS Members, End of FY24
1950-1959	23	26
1960-1969	30	33
1970-1979	40	39
1980-1989	8	7
1990-1999	13	12
2000-2009	16	16
2010-2019	17	17
2020-2025	9	2

Constituency	# of HS Members, end of FY25	# of HS Members, end of FY24
Alumni Trustees	13	14
Non-alumni Trustees	5	5
Alumni (non-trustees)	143	139
Honorary Alums (non-trustees)	5	4
Non-alumni Faculty	2	3
Friends & Parents of Alums	14	14
TOTAL	182	179

Note that the Class of 2024 moved up from 41st to 14th in the ranking by number of class members in the Heritage Society as three classmates established a planned gift in FY25. Also, the Class of 1975 moved up from 3rd to 2nd place in the ranking by number of class members in the Heritage Society because one member of the class made a planned gift in FY25. Every alum who joins this special group of Webb family can make a significant difference in their class ranking, and more importantly, every new member can make a significant improvement in Webb Institute's financial well-being and the sustainability of its full-tuition scholarship for all students.

[1] The Webb Heritage Society was created to recognize and honor those who have had the foresight and generosity to include Webb Institute in their estate plans; have added Webb as a beneficiary of their bank accounts, insurance policies, IRAs, 401(k)'s; or have employed other planned giving vehicles.

Webb expresses its appreciation to those who have established a planned gift by inviting all Heritage Society members to the annual Heritage Society Reception and Dinner. The 2025 event was held in the Visconti Reception Room of Stevenson Taylor Hall on Friday evening, May 16 (the day before Homecoming) and was attended by nearly 70 guests. The entire Class of '75, celebrating its 50th anniversary, was invited to attend the event with the hope that those who are not already members will be motivated to join. As has become tradition, the meal was planned, prepared and served by Webb students in an expression of their appreciation for the important role that Heritage Society members play in providing all students a full-tuition Webb scholarship, and as a tribute to the late Peggy Michel who initiated the event in 2014. A highlight of the evening was the presentation of a symbolic check in the amount of $641,053 by the Honorable Thomas Kistler from the estate of his father who was a Webb graduate in 1946. At the conclusion of the event, attendees had the opportunity to take home the Webb apron as a parting gift. The accompanying photos attest to the fact that this year's event was a resounding success, and a good time was had by all!

As announced elsewhere in this Annual Report, Webb recently launched the public phase of the *Invest In Excellence* (IIE) Campaign which will conclude on June 30, 2029. Planned giving will be an important component of the IIE Campaign, and we hope to accelerate the growth of the Heritage Society throughout the course of the campaign. Planned gift pledges made by anyone who will be 70 years of age or older by the end of the campaign (with a spouse also meeting that age requirement if the gift is from a jointly held asset) will count toward reaching the campaign's goal of $40 million. For those Webb alums who are not yet members, consider a planned gift as a way to supplement your annual donations to "give back" (or "pay forward") the value of your Webb education with no negative impact on your quality of life. In fact, it is likely to have a positive impact on the quality of your life as you will feel good that you've done the right thing! The Webb Heritage Society is certainly a very special group within the Webb family as its members emulate the generosity of our founder William H. Webb and help ensure Webb's inter-generational sustainability.

For more information on Webb's Heritage Society, including information on various planned gifts and how to become a member, please call our Director of Development, Anthony Zic at 516-759-2040 or email him at azic@webb.edu. All members receive a Heritage Society pin, a Young America drawing suitable for framing, recognition in the Lenfest Gallery, and an invitation to the annual Heritage Society Reception and Dinner.

Ranking by Number of Class Members in the Heritage Society

Lots of food, wine, and conversation with old and new friends

Presentation by Hon. Thomas Kistler of planned gift from the estate of his father Robert K. Kistler '46

A round of applause for the student volunteers who made the Heritage Society a success!

2024-25 HERITAGE SOCIETY

Webb Institute is fortunate to have alumni and friends whose dedication to the institution has inspired them to leave a lasting legacy. There are members of the Heritage Society as young as members of the Class of 2025—so you see, it is never too early to consider Webb in your future plans. Legacy gifts are the cornerstone upon which Webb was built, and they will continue to play a vital role in Webb's finances. These thoughtful gifts provide Webb with the fiscal strength and security needed for future generations.

Below is a list of living and deceased members of the Heritage Society as of October 10, 2025.

Scholarships, Professorships & More

Charley Kurz (Hon.) with Annabel Bornebusch '26 and Oskar Caldarone '27

Webb is the only full-tuition scholarship private undergraduate program of its kind in the country, and it is crucial that we sustain this model for students who are academically and personally prepared for the Webb challenge. From the start, Webb has relied upon its endowment, initially through funds provided by William H. Webb, and later through the generosity of our alumni, family, and friends. Every unrestricted contribution to Webb's Annual Fund helps ensure the inter-generational sustainability of Webb's full-tuition scholarship model.

Webb is also supported by a variety of non-endowed, restricted gifts that enhance the Webb student experience through the arts, clubs, and much more. We thank each and every member of the Webb family for your support!

ENDOWED AND NAMED CHAIR & PROFESSORSHIPS

American Bureau of Shipping Chair in Naval Architecture and Marine Engineering
James J. Henry '35 Professorship of Naval Architecture
John J. McMullen (Hon.) Professorship of Humanities
Mandell and Lester Rosenblatt (Hon.) Professorship of Marine & Electrical Engineering
Matson Navigation Company Professorship of Sustainable Ship Design
Shirley N. and Stephen B. Towne '40 Professorship of Ship Design

TUITION SCHOLARSHIPS

Almeida Family & Maria DeOliveira Scholarship
American Bureau of Shipping Annual Scholarship
Arthur Burr '54 Scholarship
Marilyn Burr Scholarship
Theresa Burr Scholarship
Burr Family Scholarship
Class of 1970 Scholarship Fund

Finance & Investments

PAULO ALMEIDA ' 95
Chair, Finance Committee

I am very pleased to report that Webb had excellent financial performance during the fiscal year ending June 30, 2025 (FY25), driven by strong investment returns and fundraising success, based in part on the early stages of the Investing in Excellence campaign. Although inflationary and U.S. recession risks have subsided significantly versus a few years ago, the Webb community should be aware that we cannot substantially insulate Webb's endowment from macroeconomic and geopolitical risks, which remain high. Given Webb's investment goal of a 6% after-inflation return (previously 5%), the majority of the endowment is invested in equities which produce suitable returns over time, but expose its market value to annual volatility. To help partially mitigate this volatility, we emphasize cost control and growing the endowment through fundraising, which was again particularly effective this year thanks to the generous support of Webb benefactors.

The Finance Committee, Investment Committee, and Administration remain focused on the medium and long term; the performance of any given fiscal year can be volatile. Webb is currently in a favorable financial position versus its small college peer group, having benefited from two solid years of fundraising and three years of attractive investment returns. The Investing in Excellence campaign will further strengthen Webb towards intergenerational financial sustainability.

The value of Webb's endowment increased 13.0%, from $71.6m to $80.9m through June 30, 2025, with very strong investment performance (16.6%) and annual unrestricted and restricted fundraising. In FY25, we reduced debt by a further $1.25m and continued to invest in facilities upkeep and improvement. Figures 1 and 2 show Webb's FY25 Statement of Financial Position (Balance Sheet) and Statement of Activities (Income Statement).

	2025	2024
Assets		
Assets		
Cash and cash equivalents	$ 561,451	$ 555,802

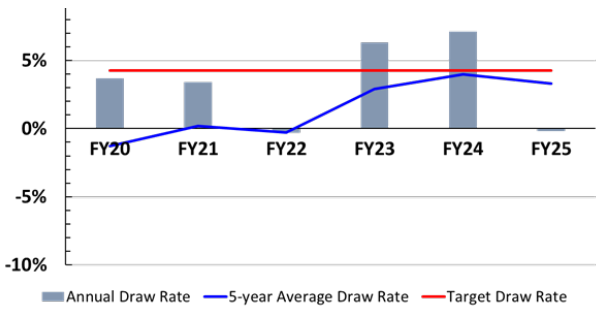

FIGURE 2– Total Draw Rate on Unrestricted Endowment

The Investment Committee is comprised of Webb Trustees and volunteers, the majority of whom are veteran institutional investment professionals. They work closely with Crewcial Partners, Webb's Outsourced Chief Investment Office, to manage the Webb endowment to an institutional standard which seeks to attain returns sufficient to support Webb's mission over the long term. While market conditions can at times be unforgiving, as they were in calendar year 2022, the structural integrity of Webb's endowment portfolio is strong and provides ready access to multiple sources of liquidity to support operations. With the help of Crewcial Partners, Webb retains world-class investment management firms to invest the core of the endowment in U.S. and foreign equity and fixed income investments which display an attractive expected return profile. In FY25, Webb's investment performance was in the top 1% of over 800 non-profits in our peer group. And on this note, Webb is very grateful for the leadership, guidance and exemplary service shown by Alison Granger as the outgoing Chair of the Investment Committee and previous Chair of the Development Committee. Thank you, Alison! We also welcome the new Chair of the Investment Committee, David Yim, who has managed several multibillion-dollar portfolios, including most recently at USAA.

The Board of Trustees and Administration are committed to Webb's long-term financial health and the maintenance of our full-tuition scholarship model. The past few years have introduced additional challenges including inflationary pressures, but the key factors to a successful financial future remain the same as highlighted in recent years: Continue the growth of the Annual Fund in excess of inflation, limit increases in budgeted expenses to the rate of inflation, expand the Heritage Society membership and work purposefully with Heritage Society members on their intentions regarding planned giving, pursue other sources of funding from outside the Webb family and from new revenue sources, and invest the endowment in accordance with Webb's risk tolerance.

Webb calculates the annual draw rate on its unrestricted endowment by subtracting its cash expenditures (operating costs plus routine capital expenditures) from its total revenues (unrestricted gifts, plus releases from restricted endowment funds) and dividing the result by the 5-year average of the unrestricted endowment. We also present the 5-year average draw rate, which reduces the volatility from significant year-to-year changes in large gift amounts—especially important during the past few years—and maintenance costs, which are structurally higher.

The Finance Committee believes this average rate is a very good overall indicator of Webb's financial health and long-range financial sustainability.

Webb's Board of Trustees sets a target draw rate based on expected investment returns that reflect Webb's risk tolerance plus an allowance for inflation; the target draw rate remains at 4.25%. If Webb can operate below this target draw rate, the endowment will become intergenerationally sustainable. Figure 3 shows the yearly unrestricted draw rates over the past 6 years. In FY23 and FY24, Webb's draw rate exceeded the target rate after several years of staying below this mark. In FY25, due to exceptional fundraising and continued cost control, we had a very favorable draw rate—just below zero (cash contributions into the endowment exceeded cash withdrawals). Webb's five-year average draw rate of 3.3%—below the target 4.25%—is a positive indicator of Webb's financial sustainability.

2024-25 MATCHING GIFT ORGANIZATIONS

We are grateful to the organizations that so generously match the contributions of Webb donors, and to the Webb family for taking the steps necessary to maximize the impact of their contributions through matching gifts. In 2024-25, Webb received over $165,000 in matching gifts, making a direct impact on all facets of Webb!

Please be sure to check with your employer to find out whether your contribution is eligible for a matching contribution. Every gift counts!
